THE COLLEGE

In today's world, high academic achievement is very important. Many people in Pakistan are dissatisfied with the standard of undergraduate education available to them and would prefer to follow a more rigorous British-type curriculum.

University College of Islamabad (UCI) aims to provide international educational programmes which combine the best that can be offered: academic guidance from the international educational bodies, a range of qualifications, individual attention from local teachers and a good college environment conducive to learning.

The college has been offering a wide range of courses from CA, ACCA, CFA including University of London International Programmes LLB and BSc from 1992.
